

Alex Gutierrez

Frontend Developer

ABOUT ME

Frontend developer with experience in fullstack environments, specialized in building modern, accessible, and maintainable interfaces, with a strong focus on UI/UX, clean code, and best practices.

I have participated in the technical leadership of projects and team coordination, taking responsibility for code review and validation before deployment to production.

EXPERIENCE

Oreka IT

May 2025 - Present

Technical Lead / Fullstack Developer

Full technical ownership of web products: architecture, stack selection, development, and deployment.

Daily code reviews and quality control before production releases.

Technical decision-making and support for complex team issues.

Management of deployments, infrastructure, and CI/CD pipelines for the department.

Technical time estimation and development planning.

Design and development from scratch of the water meter reading application for the City Council of Vitoria-Gasteiz.

Complete redesign and modernization of an Industry 4.0 MES application.

Full rewrite of a multimedia project management web platform.

Gestioma

December 2022 - May 2025

Fullstack Developer

Fullstack development of technical web platforms for engineering and 3D modeling.

Key contributor to the 3D model viewer, the company's main product.

Implementation of advanced features: 360° images, GeoJSON maps, traffic cameras.

Development of the internal 3D model management system (users, permissions, data, uploads).

Complete redesign of the viewer's 2.0 interface and refactoring of over 40,000 lines of code.

Design and implementation of CI/CD pipelines and Docker-based production deployments.
